

Vue.js Frontend Developer (f/m/d)

(full-time / part-time / working student)

About us

CSN. is an owner-managed telecommunications company with headquarter in Düsseldorf. Since 2001, we have been developing and operating innovative conference platforms and have established ourselves as a provider and brand for telephone & web conferences on the market.

Your tasks

- Cooperation in the new conception of a web frontend for a telephone and multimedia conference system
- Development of an intuitive and visually appealing interface in Vue.JS and Bootstrap
- Close cooperation with backend development and product management
- Enhancement and optimization of existing products

The requirements

- Good knowledge of HTML5, CSS, JavaScript, Vue.js, Bootstrap
- Experience in frontend development

You're welcome too:

- Experience with WebSockets, Java, MySQL, Groovy, Microservices
- Knowledge in the field of UI/UX design, creative, design-oriented, technically inclined

And this is what you can expect

- Direct communication, quick decisions and a lot of creative freedom
- A workplace in the heart of Düsseldorf between „Kö“ and old town or in Aachen
- If desired - working in the home office
- Working hours can be arranged flexibly
